Subject: 2011 Executive Leadership Course Offering: Scenario Based Executive Leadership Training (SBELT)

Purpose

The purpose of this Information Bulletin is to announce the executive leadership course being offered for 2011. This course will be offered in each of the 10 Districts in Indiana. Districts will need to provide 2 sets of possible dates that they would like to offer the course in their district; ***date selection is due by January 2, 2011***. All 10 SBELT offerings must be completed by May 2011.

General

This course is created to expand and sustain homeland security leadership across the country. Developed by the Western Community Policing Institute and the Virginia Center for Policing Innovation, the course is designed to be challenge and scenario-based, requiring active participation and problem-solving. Participants, as leaders of their communities, will learn about leadership theories and traits that will assist them in planning and preparing for a National or domestic all hazards catastrophic event. This course will use historical figures and a pandemic influenza case study to examine and discuss how leaders, at critical times, can do the right thing, at the right time, in the right way, and for the right reasons. This course is designed to provide “hands-on” practical training activities that lead to providing executives with the leadership skills needed in an “all-hazards” event.

This Informational Bulletin is intended to communicate guidance and clarification of District Programs. The information contained herein supersedes all previous information or guidance pertaining to the subject. This information is intended to help districts plan, prepare, take appropriate actions and collaborate.
